Item/Question:

FAQ 1403: Is there a way to copy banner job submission parameters from one user to another?

Solution/Answer:

This document will walk through the steps of how to copy saved job submission parameter sets from one user to another.

Step 1

Navigate to GJAPDFT – Default Parameter Value Validations. In the **Process:** box, choose the job name you would like to copy a parameter set for.

You can do this by either:

- Typing the job name into the **Process:** box
- Or by clicking the down arrow on the drop-down box. Once you reach the GJAJOB – Process Maintenance screen, enter your search criteria and press F8 or to search all jobs simply press F8. Then choose the job name you would like to use by double clicking in the **Process:** box on the name of your desired job.

In the **Parameter Set:** box, choose the parameter set you would like to copy by double clicking in the **Parameter Set:** box on the name of your desired parameter set.

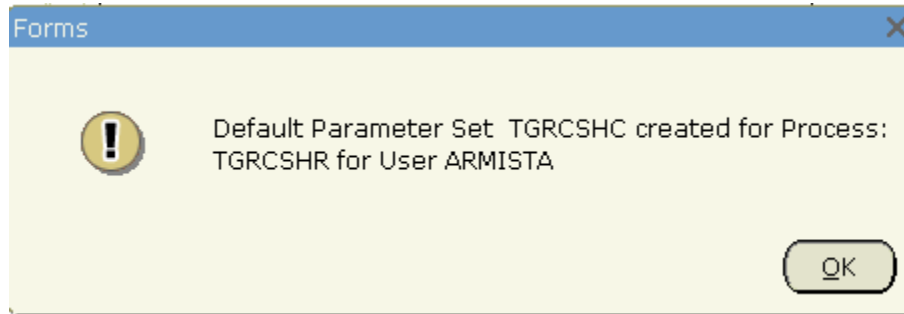

Then click CTRL+PGDN.

Step 2

To copy parameters to the new user:

- Click Options> Copy Defaults to New User
- Enter the New User ID by typing it into the pop-up box or by clicking the down arrow from the drop-down box and choosing the user from the list.
- To Save, press F10

You should receive the message:

Click OK.
