## ZSRDEPO – Creates a Deposit Report

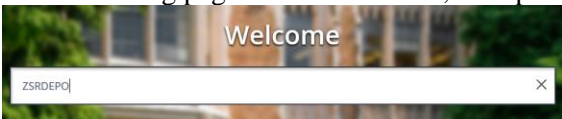

ZSRDEPO is a job-submission process that provides an alphabetic detailed listing of all students who have Scholarship Deposits. You optionally can print those students who have completed Deposits. This process also runs using a Population Selection.

ZSRDEPO has 9 parameters in GJAPCTL.

Through TGRRCON, you can see the total Deposit revenue, not broken down by student. This report shows the Student Name, ID, Deposit Entry Date, Deposit Amount, Released Amount, Deposit Balance, Amt to be Released and Release Date (if applicable), the student account balance, if the student is registered for the term and the student's Cleared Flag.

Report Totals are provided. The Deposit Balance total on ZSRDEPO should tie to the TGRRCON Deposit total dollars for Revenue Scholarship.

On the landing page enter ZSRDEPO, then press enter.

In Process Submission select **Go**

In the Printer Control Section – Enter **Database**

**Alt Page Down** to go to next section or click on the down arrow at the bottom of the page. 

**Enter your Parameter Values.** Each Parameter is defined in red.

Process: ZSRDEPO Deposit Report Parameter Set:

**PRINTER CONTROL**

Printer	DATABASE	Submit Time		PDF Font
Special Print		MIME Type	None	Delete After I
Lines	55	PDF Font		Delete After I

**PARAMETER VALUES**

Number *	Parameters	
01	Process Term	Enter the Process Term.
02	Beginning Entry Start Date	Enter the Deposit Entry date you want to use. All other deposits established before this date will not be included on this report.
03	Create Deposit Text File (Y/N)	Enter Y to create a flat text file of all deposits printed. Data in the text file includes: Student name, ID, deposit entry date, deposit amount, released amount, deposit balance, amount to be released, released date, Registered for the term, accept flag.
04	Show Completed Deposits (Y/N)	Enter Y to show all deposits which have been satisfied, or N to show only those deposits who has a remaining deposit balance to be released.
05	Selection Identifier	If a Population Selection is used, all four parameters are required; only those students in the given Population Selection are considered. Do not enter just one of these parameters. Make sure all four parameters are blank if you do not use a
06	Application Code	Population Selection with this process
07	Creator Id	
08	User	
09	Output Selection Identifier	If a Output Selection is used, all three parameters are required.
10	Output Application Code	
11	Output Creator Id	
12	Line Limit	Enter 55 as the default. Any value can be used in accordance with DATABASE.

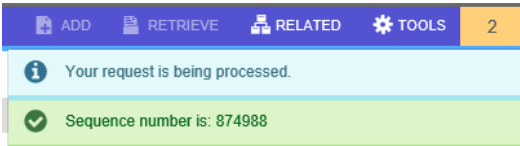

**Note:**

ZSRDEPO generates a .lis, .log and .txt file.

After you have entered your parameters **Alt Page Down** to go to next section or click on the down arrow at the bottom of the page. 

Press F10 to save or select the SAVE button at the bottom right corner to run the process. 

Once the process is run you will see informational message in the top right corner of your page. It will also identify the sequence number.

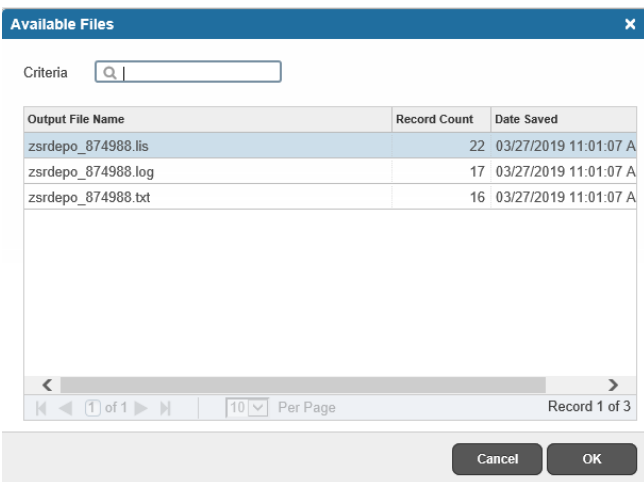

To view your .log and .lis file, click the RELATED tab at the top right of the page and then select Review Output [GJIREVO]

Click on the ... to view your .log or .lis file.

Your sequence number will be showing. (If the process is complete)

You will see your available files.

Select either your .lis file, .log, or .txt file to view.

Then click OK

Below is sample output information of your .log, .lis and .txt file.
