ZXPCRET clears the customer and balance data from the previous term from the CAMPUSAR.BOOKSTORE and CAMPUSAR.BOOKSTORE_BALANCE tables.   Parameter 02 should always be set to N for all colleges that use Nebraska, Follett or Pivot. Only change Parameter 02 to Y if your college uses Barnes and Noble. Currently we only have one college that uses Barnes and Noble. Only a log file will be produced for this process. No .lis file will be created.
