PAS Group Title/PAS Code: Medical Laboratory Technology/0840

Program Standard Title/Major Code(s) and/or Course Standard Title/Course Code(s):

Clinical Chemistry/CLBT 1070

[Click or tap here to enter text.]

TICKET INFORMATION:

There was a pre-req & co-req error within the CLBT 1070: Clinical Chemistry course. The pre-req & co-req stated that CHEM 1151 & 1151L and CHEM 1212 & 1212L were “or” options. CHEM 1212 & 1212L are not required general-ed courses within the CLT3: Clinical Laboratory Technology degree. The only general educational Chemistry courses required are the CHEM 1211 & 1211L. The pre-req for the CLBT 1070 course was updated to state an “or” option between CHEM 1151 & 1151L and CHEM 1211 & 1211L. The 201412 version of the course was updated, and credit hours remained as is. However, within the newest version of the KMS curriculum database, a course(s) cannot exist within both the pre-req & co-req sections. The CHEM 1151 & 1151L remained untouched, allowing it to remain in both sections. However, adding the CHEM 1211 & 1211L to the pre-req section eliminated the option to add it to the co-req section. Colleges will need to advise their students on program preferences before taking this course.
