TICKET INFORMATION:

The state standard commercial driving TCCs went through the program review process in 2019. All updates were made to courses and content to meet the FMCSA's Entry Level Driver Training (ELDT) criteria. The TCCs followed the college review process and then were approved by both the presidents' council and the TCSG state board in December 2019. The 2020 program versions and all courses are now ready for full implementation fall term 2021. Please adjust catalog information and all syllabi to reflect these new training standards by that time.
