### TICKET INFORMATION:

The CN21: Nurse Aide TCC program is a standard program. Wiregrass Technical College requested that the ALHS 1040: Introduction to Healthcare (3) have an "or" option of ALHS 1113: Introduction to Health Professions (2). This "or" option will allow dual enrollment students within Wiregrass's service area to have the ability to complete the Allied Health & Medicine Dual Enrollment Pathways while earning college credits.

Additionally, this "or" option has provided the program flexibility for colleges to select one of the two courses. This flexibility will indicate a small change within KMS of the programs' total credit hours. The program hours will be decreased from 13hrs to 12hrs; however, for colleges that would like to remain offering the ALHS 1040 course, the credit hours will remain at 13hrs.

Overall, the requested changes were made to the 2010 version of the CN21 program and should not impact how colleges offer the program. The slight change has provided the program more flexibility for colleges such as Wiregrass GA to meet the student population's needs.
