### TICKET INFORMATION:

The Radiologic Technology IFCC met on March 22<sup>nd</sup>, 2021, and revised the RADT courses to align with the latest version of the American Society of Radiologic Technologist (ASRT) curriculum standards. The revisions within the courses resulted in creating the 2021 versions of the RADT classes due to removing outdated vocabulary used within the competencies and learning outcomes. However, the credit and contact course of the RADT courses remained untouched.

This information ticket is to inform colleges that the 2010 version of the RADT 1010: Introduction to Radiology course has been replaced with the 2021 version within the following programs,
