<b>SC31 Supply Chain Management</b>	
<b>SC41 Supply Chain Manager TCC</b>	

**TICKET INFORMATION:**

The PROBE voting period ended on September 10, 2021 for the programs listed below.

The BL12 Business Logistics Management Diploma is an institutionally developed program at Albany Technical College. Albany voted agree with no comments.

BL13 Business Logistics Management Degree is an institutionally developed program at Albany Technical College. Albany voted agree with no comments.

EC53 Ecommerce Degree is an institutionally developed program at Albany Technical College. Albany voted Albany voted agree with no comments.

ET33 Engineering Technology Degree is a standard program that is offered at 10 colleges. All colleges voted agree with support and no comments.

LA12 Logistics and Supply Chain Management Diploma is an institutionally developed program at Savannah Technical College. Savannah voted agree with no comments.

LA41 Logistics and Supply Chain Management Specialist TCC is an institutionally developed program at Georgia Northwestern Technical College. Georgia Northwestern voted agree with no comments.

LAS2 Logistics and Supply Chain Management Diploma is a standard program offered at six colleges. All colleges voted agree with no comments.

LM13 A. S. - Logistics Management Degree is a standard program offered at three colleges. All colleges voted agree with no comments.

LS21 Logistics Specialist TCC is a standard program offered at five Colleges. All colleges voted agree. There was one comment which expressed a concern over how the changes made to this TCC would mesh with those that had institutionally developed programs in this area. Since the program had minor edits to the learning outcomes only those programs with these courses would be affected.

LT11 Logistics Technician TCC is an institutionally developed program at Savannah Technical College. Savannah voted agree with no comments.

MD13 Business Management is a standard program offered at 20 colleges. All colleges voted agree. There was one comment related to the general education core requirements. *Suggest decreasing Management and General core electives from 6 to 3 credit hours. The suggested change would reduce the program to 60 hours and the general education core to 15, still meeting SACSCOC standards, Suggest adding BUSN 2200 (Office Accounting) to the list of "or" choices with MGMT 1135 and ACCT 1100.* Based on that comment TCSG recommendation is the changes suggested would need to be addressed by the Business Management IFCC group as nothing else was changed or updated in the program standard. The general core and first two course options are exactly as they were before. Central Georgia has decided to us a local "or" option to include the BUSN 2200 course.

OM13 Operations Management Degree is an institutionally developed program at Albany Technical College. Albany voted agree with no comments. Two other institutions also voted agree.

PR23 Procurement Degree is an institutionally developed program at Atlanta Technical College. Atlanta voted agree with no comments.

RSM3 Railroad Systems Management Technology is an institutionally developed program at Coastal Pines Technical College. Coastal Pines voted agree with no comments

SC12 Supply Chain Management Diploma is an institutionally developed program at Atlanta Technical College. Atlanta voted agree with no comments.

SC13 Supply Chain Management Degree is an institutionally developed program at Atlanta Technical College. Atlanta voted agree with no comments.

SC23 A. S. - Supply Chain Management Degree is an institutionally developed program at Atlanta Technical College. Atlanta voted agree with no comments.

SC31 Supply Chain Management TCC is an institutionally developed program at Albany Technical College. Albany voted agree with no comments.

SC41 Supply Chain Manager TCC is an institutionally developed program at Atlanta Technical College. Atlanta voted agree with no comments.

The presidents will review the PROBE results on October 25, 2021 for final comments and review.
