Oconee Fall Line	Yes	On page 2, this information was supposed to be updated based on the Occupational Outlook Handbook which reports \$70,380 annual salary and an average \$33.84/hour. Under Program Outcomes - This paragraph was supposed to include the ARRT (S) as a national certification exam along with the ones	CPS acknowledges that the revisions were discussed during the IFCC meeting and will update the standards as requested.

		<p>listed. This is recognized by JRC-DMS.</p> <p>Again, under External Standards, the ARRT (S) national exam should also be added as an "or" option.</p> <p>I was responsible for making revisions and updating the list based on the new CAAHEP standards. No other discussion was made regarding this. This information should have been revised in the Probe. CAAHEP is removing specific numbers so the 1:1 student tech ratio should be removed. Also, we agreed to take out JCAHO specifically and state it as the facility should hold appropriate accreditation certification if applicable. Because of the more specific standards on ergonomics, more detailed ergonomic equipment was included. Image cassettes and dark rooms are no longer in the curriculum. VCRs are also outdated. With the specific mention of quality control and lab management</p>	
--	--	--	--

		<p>in the new standards, a physics phantom was added as necessary equipment to discuss and teach this aspect of physics. I do not see any of these items mentioned in the new equipment list. Staff at clinical sites can now be ARRT (S) registered or registered by the ARDMS in the specific specialty. "</p>	
Ogeechee	Yes	<p>We have reviewed the course revisions for DMS and Echo, and we are fine with them as is. We do not feel that adding pre-requisites is necessary, as a C is required in all program courses in order to progress.</p> <p>(Comment received 10/25 after voting deadline of 10/15)</p>
