Absent			
<p>Quentin Cooks (Dean), Wayne Ploss, Thomas Wesley (Dean), Derrick Hogan, Shannon Gary, Jeffrey Friend, Lemuel Mercado (Dean), James Yearty, Sonya Wilson (Dean), Chad Brown, David Finley (Dean), Richard Whitman</p>			
Key Topics Discussed			
Topic	Summary		
Meeting Agenda	Meeting Agenda was emailed to the group		
Welcome and Roll Call	Philip Shirley opened the meeting by welcoming guests and introducing new faculty.		
Nominations of Co-Chair	<p>Nominations for Co-Chair were discussed and three instructors were nominated. The nominees are Edward Kiszka of Athens Tech, Tommy Morris of Lanier Tech, and Jeffrey Friend of Savannah Tech. It was decided that a vote by the whole IFCC group should be taken. Mike said he will send out an email vote with one vote per technical college. The deadline to vote is May 4 and there are now 16 technical colleges with a precision machining and manufacturing program.</p>		
Status of program version changes	<p>Mike Howard gave us a status update of program version changes. The 6 credit hour electives for PMMT have been reduced to 3 credit hours. He advised us to concentrate on content in our future changes.</p> <p>Discussion of an advanced CNC certificate that would include multi-axis programming and machining followed.</p>		
Virtual vs Face2Face IFCC Meetings	<p>Mike then spoke about the future IFCC meetings and if they would be Face2Face or virtual. Everyone seemed to agree that face2face was better, but Mike seemed to think that we would still be virtual for a while.</p>		
Remove “Manual” from AMCA 2130 and 2150 course names	<p>The motion to remove the word “manual” from the CNC Lathe and Milling courses was put forward by Phil Shirley. It was seconded and was agreed that manual would be remove from the course names.</p>		

Next Steps/Meetings	Mike and Phil both spoke about next steps to be taken in the PMMT program and meetings.
The meeting was adjourned	Philip Shirley motioned to adjourn, which multiple people seconded, and the meeting ended at 3:15
Additional Topics	There were no additional topics.
