PAS Group Title/PAS Code: Industrial Systems Technology/0680

Program Standard Title/Major Code(s) and/or Course Standard Title/Course Code(s):

Rapid Transit Technology – RTT2

AUMF 1150 – Introduction to Robotics

ECET 2121L – Electronic Circuits I Lab

TICKET INFORMATION:

The Rapid Transit Technology diploma program is an institutionally developed program offered only by Gwinnett Tech. At the request of the college the TCSG AA staff made adjustments to the curriculum in a new version of the program. AUMF 1150 was duplicated in the existing version and so the second instance of this course was removed. As well the lab course ECET 2121L was missing as a required course in the existing version so this course was added to the curriculum. The total credits of the program drop from 58 to 56 with these curriculum adjustments. The new 202212 version of this program will now go to the state board in June 2022 for final approval.
