BA53 Building Automation Systems (202512)

[Click or tap here to enter text.]

### TICKET INFORMATION:

At the request of Lanier Technical College, the total program credit hours for their institutionally developed BA53 Building Automation Systems program was reduced from 75 to 71 credit hours to be in compliance with TCSG Policy Procedure: 5.1.6p which states "The range of semester credit hours required for graduation with an Associate Degree is 60-73."

With the recommendation of the program faculty, BUAS - 1070 PLC for Energy Management was removed as a required course and added as an elective option.

No other changes were made, and the new program version is 202512.
