TICKET INFORMATION:

At the request of the program faculty the 3 CTDL courses listed above had a minor editorial change made to Competency 3.8 in the course standard regarding alley docking.

- Current federal ELDT curriculum for Class A & Class B states in Behind-the-Wheel-Range, unit A2.3 Alley Dock Backing:
 - Driver-trainees must demonstrate proficiency in proper techniques for performing 45/90 degree alley dock maneuvers to appropriate criteria/acceptable tolerances.

Suggested change made to current KMS course standards for the above competency:

- Demonstrate proper techniques for performing **45/90-degree** alley dock maneuvers within acceptable tolerances.
